

ART'EAST Salon and the International magazine «UNIVERS DES ARTS»

To give national and international exposure to our salon, we have for many years collaborated with the international «World of Arts» magazine, which is well-known to professionals and art collectors alike.

Our exhibitors can, should they so choose, insert a photograph of a work of their choice, as well as their details, in the article devoted to the salon which will appear in the July / August / September 2016 edition (40,000 print run).

While being included in this publication containing our article on the salon is optional, it has in previous years developed a broad following among artists. It has also had a considerable impact on the magazine's readership, both in France and abroad.

So, in the spirit of similar steps taken by some big Parisian salons, inclusion in «World of Arts» can, for the artist, lead to solicitations and advantageous contacts, as well as recognition in the art world.

The costs associated with participating in this exposure have been calculated to provide no benefit or profit for the association ART EAST.

After registering, interested artists are asked to contact us at the address below:
