

37th VITTEL INTERNATIONAL EXHIBITION 2023
ART'EAST and "UNIVERS DES ARTS" partnership

**POSSIBILITY OF PUBLICATION IN THE INTERNATIONAL JOURNAL
"UNIVERS DES ARTS"**

To give to this exhibition a large nationally and internationally impact, we collaborate with the magazine "UNIVERS DES ARTS". If you want, you can insert a photo of an artwork and your contact information in an article especially dedicated to the exhibition that will be published in the July/August/September 2023 issue, (published in 40 000 copies).

Indeed, by promoting both the attendees artists and the international Salon of Vittel, we have been working over many years with the international journal "UNIVERS DES ARTS", well-known magazine for professionals and art lovers.

This additional option, complementary to our article about the Exhibition, met each year with wide keen interest from artists. This is a significant impact on the readership, both in France and abroad.

Through this collaboration, in the spirit and the approach of the great Parisian exhibitions, the diffusion of "UNIVERS DES ARTS" can promote your Art, solicitations and business contacts allowing a higher recognition in the world of Art.

The financial conditions of this service are calculated without any financial compensation for our organization "Art'East".

Interested artists are requested, upon registration, to contact directly the editorial office of "UNIVERS DES ARTS" to receive the full documentation about this opportunity.
